

GENERAL MOTORS INSTITUTE

FLINT 2, MICHIGAN

February 17, 1964

Mr. Robert Miller
Executive Secretary
Phi Delta Theta Fraternity
S. Campus Avenue
Oxford, Ohio

Dear Mr. Miller:

General Motors Institute would be greatly honored to have a chapter of Phi Delta Theta fraternity on its campus.

It is my firm conviction that GMI possesses an ideal environment for fraternal organizations. Over a number of years our local fraternities, including Alpha Delta, have developed into substantial houses academically, socially, financially, and in their contributions to community service. They are recognized by the faculty, staff, Board of Regents, alumni and students as great assets to the total educational program of General Motors Institute.

We believe that the affiliation of our strong local fraternities with strong national fraternities such as Phi Delta Theta will be mutually beneficial. Some of our recent national affiliations have proven already to be highly successful from many standpoints.

Accordingly, I should like to encourage both Phi Delta Theta national fraternity and our local fraternity Alpha Delta to consider an appropriate affiliation. I can assure you that this relationship will have the complete approval and support of all those connected with GMI.

Very sincerely,

Harold P. Rodes
President
