Akron 13, Ohio

Dear Brother Jenkins:

On behalf of the many Brothers in the Lansing area, I ask that you give favorable consideration and recommendation to the request for a Phi Delta Theta Charter made by the colony at General Motors Institute, Flint, Michigan. Based on a visit with Brother Gerald H. Cummings, who is faculty advisor to the colony, and the general knowledge and information which we in this area have relating to General Motors Institute, we are greatly impressed with the potential for our Fraternity.

I believe it is significant that the administration of General Motors Institute is making every effort to encourage the establishment of a chapter of Phi Delta Theta. Taking into account the financial situation of the petitioning group and the character of its membership, together with the status of the school as a whole, the interest of Phi Delta Theta in the establishment of a chapter should be most aggressive.

Yours in the Bond,

  
Michigan Alpha '27
